### Unit Descriptor
This unit of competency describes the skills and knowledge required to maintain and care for containerised nursery plants.

It applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They undertake defined activities and work in a structured context. All work is carried out to comply with workplace procedures.

### Pre-requisites
Nil

### What do I need to do to be deemed competent?
To be deemed competent in this unit you must be able to provide evidence that you can:

- select and use appropriate tools and equipment
- maintain nursery hygiene
- Service, repair or replace basic operational irrigation system components and user serviceable parts
- maintain nursery plants as instructed
- check irrigation system performance
- monitor environmental controls
- recognise common problems in nursery plants
- repair or replace user serviceable irrigation components
- record workplace information

### To achieve a satisfactory result
The Assessor will assess competence against the performance criteria, knowledge and skills plus foundation skills as specified in the “Unit of Competency” details of the unit listed above.

This unit is ungraded. Your final result will be recorded as competency achieved (AC) or competency not achieved (NC)

You will be given an outline of assessment tasks and due dates for each assessment event.

Each assessment task/event will be marked as Satisfactory or Unsatisfactory.

You must gain a satisfactory result for each assessment task/event to achieve a result of AC (Competency Achieved) for this unit of competence.
